

SLIGHT ANGLE STUDIOS™

Prioritize Perspective™

COMPANY OVERVIEW

Slight Angle Studios LLC — Company Overview

Veteran-owned curriculum studio · Supportive education, not therapy · 2026-06-30

What we do. We turn one behavioral-science idea — *people run protective patterns they were never taught to see* — into plain-language curriculum, workbooks, and facilitator training. The Patternomics method: **Check the signal · Identify the pattern · Update the mission · Take the next right action · Debrief.** A person *has* a pattern; a person is never the pattern.

Why it works as a business. Workbook-first design means every product can be piloted, licensed, trained, and scaled — across families, schools, veterans, recovery, workforce, and reentry — using the same shared language.

Two product lines, already built to release standard: - **Bob & the Blobs / Patternomics Day One (K-12).** Four grade-band guides, 100 student-workbook pages, 100 case cards, parent/ESA edition, privacy/legal drafts, evaluation pack. In no-cost 2026-27 pilot readiness. - **Behavioral Bodyguard™ (adult — the Patternomics veteran & recovery program).** Six buyer-segment partner packets (Executive/B2B, Employer/EAP, Veteran org, Recovery program, Reentry/Justice, Faith), procurement & compliance checklist, crisis/safety protocol (988 / Veterans Crisis Line), participant workbook, evaluation pack.

Evidence posture. Research-informed; ESSA Tier IV (“demonstrates a rationale”). Cited bibliographies with verified DOIs, logic models, non-diagnostic learning checks, and pilot-findings templates. Not yet validated by trial — pilots are the next step.

Status. CA LLC (2026), Service-Disabled Veteran-Owned. Website live; theory published (Zenodo DOI 10.5281/zenodo.21040834). Revenue near-term via B2B workshops/licensing; mission reach via school/ESA pilots + grants.
