Prioritize Perspective™

DAY ONE — CURRICULUM OVERVIEW

Day One™ — SEL Curriculum One-Pager

K-12 character, emotional-literacy & decision-making curriculum, built from Bob & the Blobs™ · Supportive education, not therapy · 2026-07-02

The one move kids learn: Feel it · Name it · Aim it. A feeling is a signal; a “Blob” is a protective pattern the signal sets off; the work is to aim one small, constructive next action. *A kid has a Blob, never is a Blob.*

What's in it (built, release-ready v2.2): Four grade-band facilitator guides (K-2, 3-5, 6-8, 9-12) with unique per-lesson objectives · 100 student-workbook pages (25 lessons × 4 bands) + 100 fictional case cards · 5-lesson quick-start · art-free storybooks · parent/ESA edition · CASEL-**informed** crosswalk · accessibility supports · exit tickets · facilitator guardrails & safety · evaluation pack (logic model, non-diagnostic learning check, pilot-findings template, verified-DOI bibliography).

Who it's for: schools and classrooms, homeschool co-ops, microschools, ESA families, tutoring/community centers, youth and family programs, and school-review teams.

How a pilot runs: request the brief → run the **5-lesson quick-start** with one or two classrooms → collect class-level feedback → decide on the full 25-lesson sequence. Pilot pricing available for schools and nonprofits.

Privacy posture: pilots are designed for class-level feedback only. Slight Angle Studios does not receive student names, individual student responses, grades, behavior records, or safety disclosures.

Honest claim: research-informed, pilot-ready; **not** proven, validated, therapy, or CASEL-certified.
